## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

***Election/Restrictions***

**DETAILED ACTION**

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-25 and 34, drawn to a digital broadcast system that multiplexes as well as broadcast information and restores information, classified in class 370, subclass 345, 394, 474, 487, 498, 527.
  - II. Claims 26-33 drawn to downloading digital information in a digital broadcast system, classified in class 375, subclass 1, 39, 44, 52, 68, 109, 110.
  - III. Claim 35, drawn to sorting information in a digital broadcast system, classified in class 348, subclass, 441, 460, 465, 473, 554, 558, 565, 569, 465.

1. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

2. Because these inventions are distinct for the reasons given above and the search required for Groups II and III are not required for Group I and visa versa, restriction for examination purposes as indicated is proper.

Inventions Groups I and Group II are related as combination and subcombination.

Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because downloading information is not needed to restore information. The subcombination has separate utility such as downloading broadcast information. In addition, Group III has a separate utility because the particulars of Group III requires sorting broadcast

information before decoding of information which is not required for the implementation of Group I and Group II.

3. Inventions Group I and Group II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention Group II has separate utility such as downloading broadcast information. See MPEP § 806.05(d).
